To Whom It May Concern,

My little girl went to Pfeifer Camp this year, I was having problems with respect and a few other things. But after going to Pfeifer Camp she has changed a lot. Her teacher and my friends have said she has changed a lot. So I wanted to let you know that I Appreciate everything they have done for her. Mr. Sanford and staff are wonderful; people. When she started Pfeifer Camp she had never went off and stayed with other people except over night and this was first time away from home. Mr. Sanford made my husband feel like she would be safe there. Ms. Theresa talked with him on the phone to assure him she was ok. So we want to give them a big hand for doing what they do. Also there is a letter on this page from a School employee that has talked and seen the change in her .

Thanks Again

TO WHOM IT MAY CONCERN;

I have known this child for about three years now and I must comment on the changes that I have noticed in her since coming back from camp. She is a lot calmer, more mature and a great helper. Her manners are impeccable and I am really impress. I asked her what she thought about camp and her immediate response were: "I want to go back!" She loved it, the schedule you all follow, the friends that she made and even the schoolwork. Whatever you do, keep on doing it! You all are doing an amazing job with these kids!

Sincerely yours,  
School Employee
