

May 2009 – Parent Letter

To whom it may concern,

So far, I've had two children attend your camp and I would like to take a moment and tell you what it has done for my little family. During one of the darkest moments in our family's history. I watched a mixed up little 10 year old girl who would have been in foster care otherwise, transform into a confident well mannered young lady before my eyes. to this day i am still amazed and so proud of her.

The improvement in grades and school work was awesome but secondary to the blessing your camp was to her outlook on life. She has been through more than any child should ever have to go thru and still smiles and laughs and walks with her head held high because she will tell you she's a Pfeifer Camp kid!

My oldest son also attended your camp almost immediately after she graduated with her urging of course. He still tells his brother and friends about it all the time and remembers the lessons he learned there. I saw great improvement in his grades, handwriting and over all behavior, but again he graduated the Pfeifer Camp a proud confident Pfeifer Camp kid.

There's no way that with words I can express to you how thankful I am to you guys, all of you but I would like to name Ms. Theresa who I'm sure helped me as much as she did the kids. You've given my little family a brand new chance at life. How do you say thank you for that?
